PURPOSE

The purpose of this supplemental advice letter is to correct the 2016 authorized Purchased Water amount.

The purpose of this advice letter filing is to request recovery of the 2016 Water Revenue Adjustment Mechanism ("WRAM") and Modified Cost Balancing Account ("MCBA"). This request is in compliance with authorizations of the California Public Utilities Commission ("CPUC") as detailed in D.08-06-002, D.12-04-048, and D.13-07-041.

BACKGROUND

On June 12, 2008 the Commission issued Ordering Paragraph 1 of D.08-06-002 which adopted a settlement agreement between Cal-Am, the Division of Ratepayer Advocates (DRA) and the City of Duarte to establish a Pilot Program for a conservation rate structure in the Baldwin Hills, Duarte and San Marino service areas of the Los Angeles County District;

1. The March 25, 2008 settlement attached as Appendix A is adopted.

As part of the amended settlement, Cal-Am was to establish a WRAM and MCBA as outlined below from page 6 of the agreement dated March 24, 2008;

Decoupling for California-American Water will be accomplished through both of the following mechanisms:

- 1. A Water Revenue Adjustment Mechanism (WRAM) for each service area in the Los Angeles District.*
- 2. A Modified Cost Balancing Account (MCBA) for each service area. MCBA's will replace existing cost balancing accounts for purchased power, and purchased water (pump taxes are tracked in the purchased water balancing account for each service area).*
- 3. Together, these decoupling mechanisms will ensure recovery of the adopted fixed costs recovered through the quantity charge, and the actual variable costs for purchased power, purchased water and pump taxes. The fixed costs not included in these accounts will be recovered through the service charge, which is a monthly charge that customers pay regardless of consumption.*
- 4. In accordance with established Commission practice, the WRAM and MCBA accounts will accrue interest at the 90-day commercial paper rate.*

The WRAM will track the difference between the total quantity charge revenues authorized by the Commission ("Total Adopted Quantity Revenues"), and the total revenues actually recovered through the quantity charge based on actual sales ("Total Actual Quantity Revenues"), excluding:

- 1. Revenue from Private Fire Protection Service and;*
- 2. Revenue from the "Other" class of general metered customers.*

Cal-Am implemented the Pilot Program on November 1, 2008 via Advice Letter 710.

Historically, this report was submitted by March 31st each year per the settlement agreement adopted in D.08-06-002;

- 1. By March 31st of each year, California-American Water will provide the Water Division (with a copy to DRA) with a written report on the status of the WRAMs and MCBA's as described herein.*

Provided the WRAM/MCBA balance exceeded a 2.5% threshold, California American Water would file an advice letter seeking to amortize the balance;

- 1. The WRAM and MCBA accounts for each service area will always be considered together for purposes of determining the need for additional revenue recovery from, or for refund to, ratepayers in that service area, and will be netted prior to any refund or recovery.*
- 2. California-American Water will track revenues in the WRAM account in each service area by customer class for analysis purposes, but implementation of a surcharge or surcredit will be done considering the net balance of the WRAM and MCBA accounts for all customer classes in each service area.*

3. *If the annual report shows that the combined over- or under-collection for the WRAM or the MCBA in any service area exceeds 2.5% of the service area's total recorded revenue requirement for the prior calendar year, California-American Water will file an advice letter within 30 days that amortizes the balance in all of the WRAM and MCBA accounts in the service area.*
4. *If the 2.5% threshold is not met, these balancing accounts will be amortized in the next GRC.*

On July 25, 2013, modifications to the reporting process were agreed to in D.13-07-041 as part of a settlement in Cal-Am's 2010 General Rate Case ("GRC") proceeding;

The parties agree that California American Water would use the same amortization schedules and procedures that were established for other Class A water utilities in D.12-04-048 for the WRAM/MCBA in all districts. This includes:

1. *Amortization of net WRAM/MCBA balances at or above 2% of the last authorized revenue requirement, as described in Ordering Paragraph 2;*
2. *The process to not initiate the cap until 2015, which is the first test year of the GRC to be filed July 1, 2013, as discussed in Ordering Paragraph 3;...*
3. *A vigorous review of the WRAM/MCBA as well as sales forecasting to be conducted in the next GRC (Test Year 2015), as discussed in Ordering Paragraph 3;*
4. *Cal Am will submit its annual request for amortization of net WRAM/MCBA balances by a Tier 1 advice letter on or before March 31, as described in Ordering Paragraph 5;*
5. *California American cannot include any additional type or category of cost in their Tier 1 Advice Letters that was not included in their Annual Report as described in Ordering Paragraph 9;*
6. *California American Water will separate the WRAM/MCBA surcharges on customer bills if it is capable of doing so with its new billing system, as discussed for other utilities in Ordering Paragraph 10.*

Additional criteria on the WRAM amortization process were outlined in D.12-04-048 as follows;

Conclusions of Law

7. *It is reasonable to require that net WRAM/MCBA over-collections be amortized through a surcredit on a customer's service charges and that all under-collections be amortized through a surcharge on the volumetric rate.*
8. *It is reasonable to change the deadline for applicants to submit their annual WRAM/MCBA report from March 31st to the previous November 30th, and to include nine months of recorded data through September 30th in the report.*

Ordering Paragraphs

1. *We adopt the amortization schedule set forth in Appendix A with a cap on total net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account (WRAM/MCBA) surcharges of 10% of the last authorized revenue requirement...WRAM balances incurred prior to the first test year referenced above*

continue to be amortized under the adopted amortization schedule without being subject to the surcharge cap.

California American Water submitted its annual report on November 30, 2016. The report contained recorded balances for January 1 through October 31, 2016 and forecasted balances for the period November 1 through December 31, 2016.

Schedule No. LA-1 (Continued)
Los Angeles County District Tariff Area
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

General Items:

1. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.
2. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes shall be allowed to have their monthly service charge modified in accordance with the monthly costs for RFSS service charges. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Fees and Surcharges:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District are 2.00% per customer on a monthly basis.
3. Per Advice Letter 1072, a surcharge of \$0.0039 per hundred gallons will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission.
4. Water Revenue Adjustment Mechanism (WRAM) and Modified Cost Balancing Account (MCBA) Surcharges.

a. **Baldwin Hills:**

- i. For the Baldwin Hills service area, a surcharge is included on each bill to recover the net under-collection in the WRAM and MCBA of \$631,749, including interest, as of December 31, 2016. The surcharge is \$0.0406 per 100 gallons and will remain effective for 18 months beginning March 31, 2017.
