Purpose:

This supplemental advice letter is being filed to comply with Resolution W-5186, authorizing California American Water Company to recover expenses from the Conservation Rationing Memorandum Account to the Monterey Consolidated Expense Balancing Account (CEBA).

The purpose of this advice letter is to request authority to recover expenses from March 13, 2014 to July 31, 2017 tracked in the Conservation/Rationing Memorandum Account ("CRMA") due to Rule 14.1 and/or Schedule 14.1 for Voluntary and Mandatory Conservation in the amount of \$199,644 for the Monterey County District including Monterey Main and the following service areas; Bishop, Hidden Hills, Ryan Ranch, Ralph Lane, Toro and Ambler Park. California American Water request to recuperate in expenses from the CRMA for all of California American Water service districts into the Consolidated Expense Balancing Account ("CEBA").

Background:

- January 17, 2014 – Governor of State of California declared State of Emergency in California due to severe drought conditions
- August 15, 2014 – In Advice Letter 1047, 1048 and 1049, California American Water requested authority to activate the "Conservation/Rationing Memorandum Account" in all its districts in accordance with Resolution W-4976 to track incremental costs related to implementing the requirements of Rule 14 and Schedule 14.1. The Commission approved the Advice letters on August 25, 2014, with an effective date of March 13, 2014 for AL 1047 and 1048 and an effective date of August 25, 2014 for AL 1049.
- April 25, 2014 – Governor of State of California issued an Executive Order to strengthen the State's ability to manage water and habitat effectively in drought conditions, and call on all Californians to redouble their efforts to conserve water.
- May 5, 2015 – the SWRCB issued an Emergency Regulation due to continuing drought conditions with specific water use reductions, by service area, and prohibitions on how end-use customers can use potable water to achieve a statewide 25% reduction in usage as compared with the amount used in 2013 (through February 2016).
- May 21, 2015 – AL 1077-A, filed through Tariff Schedule 14.1, California American Water
- November 13, 2015 – Governor of the State of California issued another Executive Order that directed the Water Board to, if drought conditions persist through January 2016, extend until October 31, 2016 restrictions to achieve a statewide reduction in potable water usage.
- On February 2, 2016 – Water Board adopted an extended and revised Emergency Regulation due to continuing drought conditions.
- May 18, 2016 – Water Board approved updated Emergency Regulation that extends emergency regulation through January 2017 with specific modifications, the most significant of these being the creation of a self-certification process for all utilities to identify required reductions based on supply need for a 3 year period.

Discussion:

California American Water has been offering leading conservation programs to its customers to achieve water savings and water wise behaviors and has further expanded its programs during the California drought of 2011 through 2016., In June of 2015 the Company activated the Conservation/Rationing Memorandum Account to track all drought related expenses incurred during the drought to help comply with the State's Drought Emergency Orders..

Request:

From 2014 through 2017, California American Water incurred \$199,644 in the Monterey County District to help meet statewide implemented water use reduction targets in each service area and to implement the SWRCB's water use prohibitions. These costs included ongoing drought communications and water use education and the employment of customer service employees (mostly temporary) dedicated to the drought situation.

The California Public Utilities Commission (Commission) adopted Resolution W-4976 on February 27, 2014 which revised the drought procedures for water conservation, rationing and service connection moratoria enumerated in Standard Practice U-40-W. Cal-Am requests to recover \$199,644 including interest from the Conservation/Rationing Memorandum Account (CRMA) balance for Monterey County, including Ambler Park, Chualar, Ralph Lane, Garrapata, and Toro Service Areas to their CEBA.

Below is the surcharges/surcredits for Monterey and its service areas:

6. Per Advice Letter 1197, the balance of the 2017 WRAM/MCBA is \$184,986. D.13-07-041 places a cap on the WRAM/MCBA surcharges of 10% of the last authorize revenue requirement. Since existing 2015 surcharge (Special Condition #6) meets this cap, there is no charge on the bill at this time. If the WRAM/MCBA was billed based on the balance, the current authorized consumption, and the adopted amortization schedule per D. 12-04-048 Appendix A, the volumetric surcharges would be \$0.0995 per 100 gallon over 36 months. After cessation of the 2016, a separate Tier 1 filing will be made at that time to update the tariff language with the current surcharge.
