ADVICE LETTER NO. 1200-A

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for review this advice letter, including the following tariff sheets applicable to all of its districts, which are attached hereto:

| <u>C.P.U.C. Sheet No.</u> | <u>Title of Sheet</u> | <u>Canceling Sheet No.</u> |
|--------------------------------------|---|---------------------------------------|
| 8932-W | Schedule No. LK-1 (continued) Larkfield Tariff Area GENERAL METERED SERVICE | 8791-W |
| 8933-W | <u>TABLE OF CONTENTS</u> (Page 2) | 8930-W |
| 8934-W | <u>TABLE OF CONTENTS</u> (Page 1) | 8931-W |

Purpose:

This supplemental advice letter is being filed to comply with Resolution W-5186, authorizing California American Water Company to recover expenses from the Conservation Rationing Memorandum Account to the Larkfield Consolidated Expense Balancing Account (CEBA).

The purpose of this advice letter is to request authority to recover expenses from March 13, 2014 to July 31, 2017 tracked in the Conservation/Rationing Memorandum Account ("CRMA") due to Rule 14.1 and/or Schedule 14.1 for Voluntary and Mandatory Conservation in the amount of \$138,488 for Larkfield District. California American Water request to recuperate in expenses from the CRMA for the California American Water service district of Larkfield into the Consolidated Expense Balancing Account ("CEBA").

Background:

- January 17, 2014 – Governor of State of California declared State of Emergency in California due to severe drought conditions
- August 15, 2014 – In Advice Letter 1047, 1048 and 1049, California American Water requested authority to activate the "Conservation/Rationing Memorandum Account" in all its districts in accordance with Resolution W-4976 to track incremental costs related to implementing the requirements of Rule 14 and Schedule 14.1. The Commission

- approved the Advice letters on August 25, 2014, with an effective date of March 13, 2014 for AL 1047 and 1048 and an effective date of August 25, 2014 for AL 1049.
- April 25, 2014 – Governor of State of California issued an Executive Order to strengthen the State’s ability to manage water and habitat effectively in drought conditions, and call on all Californians to redouble their efforts to conserve water.
 - May 5, 2015 – the SWRCB issued an Emergency Regulation due to continuing drought conditions with specific water use reductions, by service area, and prohibitions on how end-use customers can use potable water to achieve a statewide 25% reduction in usage as compared with the amount used in 2013 (through February 2016).
 - May 21, 2015 – AL 1077-A, filed through Tariff Schedule 14.1, California American Water
 - November 13, 2015 – Governor of the State of California issued another Executive Order that directed the Water Board to, if drought conditions persist through January 2016, extend until October 31, 2016 restrictions to achieve a statewide reduction in potable water usage.
 - On February 2, 2016 – Water Board adopted an extended and revised Emergency Regulation due to continuing drought conditions.
 - May 18, 2016 – Water Board approved updated Emergency Regulation that extends emergency regulation through January 2017 with specific modifications, the most significant of these being the creation of a self-certification process for all utilities to identify required reductions based on supply need for a 3 year period.

Discussion:

California American Water has been offering leading conservation programs to its customers to achieve water savings and water wise behaviors and has further expanded its programs during the California drought of 2011 through 2016. In May of 2015 the company activated the Conservation/Rationing Memorandum Account to track all drought related expenses incurred during the drought to comply with the State’s Drought Emergency orders.

Request:

From 2014 through 2017, California American Water in the Larkfield District incurred \$138,488 to help meet the statewide implemented water use reduction targets in each service area and to implement the SWRCB’s water use prohibitions. These costs included ongoing drought communications and water use education and the employment of customer service employees (mostly temporary) dedicated to the drought situation.

The California Public Utilities Commission (Commission) adopted Resolution W-4976 on February 27, 2014 which revised the drought procedures for water conservation, rationing and service connection moratoria enumerated in Standard Practice U-40-W. Cal-Am requests to recover \$138,488 including interest from the Conservation/Rationing Memorandum Account (CRMA) balance to the Larkfield CEBA will be recovered through a quantity based surcharge of \$0.393 per 100 gallons over 24 months upon effective date.

Resolution W-4976 states that:

Memorandum accounts to track expenses and monies collected by the utility through water use violation fines must be requested through an advice letter, either in conjunction with an advice letter requesting adding Rule 14.1 or Schedule 14.1, or in a stand-alone advice letter.

Paragraph 37 in Resolution W-4976, states that:

The tracking of lost revenues as a result of conservation efforts in a lost revenue memorandum account is tied to the utility having Rule 14.1 or Schedule 14.1 in its tariffs and having activated either Rule 14.1 or Schedule 14.1.
